(ii) FEES FOR PARTICULAR DUTIES—<i>continued.</i>		
NOTES—<i>continued.</i>		
The fees paid to the Sheriff and Officers of Court cover all such expenses as cost of paper, preparation and posting up and delivery of notice, hiring and ringing of bells and the like.		
The Court may, in any case, civil or criminal, require a witness's expenses to be paid or secured before issuing a subpoena for the witness.		
The travelling expenses of witnesses in all civil and criminal causes shall be allowed according to the sums reasonably and actually paid.		
An officer in the Public Service when summoned as a witness, except when summoned by the Crown, is allowed costs and travelling expenses as if he were not in the Public Service; when a witness actually attends for less than one hour he may be allowed only half costs if the Court thinks fit.		
In criminal proceedings the Court may, if it thinks fit, direct repayment of any fees paid.		
No fees are taken which would be payable by any public department; but in criminal proceedings such fees shall, nevertheless, where they would ordinarily be payable, be taken as paid for the purpose of assessing any costs which the Court shall direct to be paid.		
In civil causes or matters allowances to assessors shall be paid by the successful party and shall be recoverable from the unsuccessful party as ordinary costs of suit unless the Court shall otherwise order. In criminal causes or matters such allowances shall be paid out of the general revenue of Sierra Leone.		
No judgment in any civil cause or matter shall be of any effect until all allowances made by the Court to any assessor or assessors in such cause or matter shall have been paid by the successful party unless the Court shall otherwise order.

POLITICAL FRANCHISE

1935.

LEGISLATIVE COUNCIL.

Under the provisions of the Sierra Leone (Legislative Council) Order-in-Council, 1924, three members are elected to the Legislative Council for a term of five years each, viz. two for the Urban and one for the Rural Electoral Districts.

The Urban Electoral District consists of the City of Freetown (section 5, of Ordinance No. 38 of 1927) together with the Sherbro Judicial District (Schedule A to Cap. 189).

The Rural Electoral District consists of those parts of the Colony excluding the City of Freetown, which are within the Peninsula of Sierra Leone, together with Tasso Island and the Banana Islands.

The electorate is confined to male British subjects, or natives of the Protectorate capable of reading and writing English or Arabic, of twenty-one years of age, having resided for twelve months in the electoral district in which the vote is claimed.

The property qualifications are : in the Urban Electoral District, ownership or occupation of premises of not less than £10 in value, or receipt of a yearly salary of not less than £100 ; and in the Rural Electoral District, ownership or occupation of premises of not less than £6 in value, or receipt of a yearly salary of not less than £60.

No person is capable of being elected a member of the Legislative Council if he is not twenty-five years of age, if he has been dismissed from the Government Service or debarred from practising as a legal or medical practitioner by a competent authority, or is in the public service of the Colony or Protectorate, or is not registered as an elector. The property qualification for a member is the possession of real or personal property of the value of £250 for the Urban and £100 for the Rural Electoral Districts.

MUNICIPAL CORPORATION OF FREETOWN.

The Municipal Corporation of Freetown is governed by the provisions of Ordinance No. 38 of 1927 (for Municipalities and other Local Bodies, *see* Section 7).

Table of Infantile Mortality.

1935.

Freetown
227
236

Colony other than Freetown ...

The infantile mortality is taken as the number of deaths of infants under one year of age per thousand registered births during the year.

All deaths are registered but many of the births are not.

Estimate of the population, male and female, at the end of the year under review - distinguishing between white and coloured.

According to the Census of 1931, the following is the population:—

White	...	Males	...	308	Females	...	112	...	420
Coloured (Colony)	51,935	43,623	...	95,558
Aliens and strangers	309	135	...	444

IMPORTS AND EXPORTS

1935.

PREFATORY NOTE.

ALL TABLES RELATE TO THE CALENDAR YEAR.

“IMPORTS FOR HOME CONSUMPTION” includes goods entered for use in the Colony at the time of importation, and goods cleared for home use ex-warehouse.

Imports statistics do not include personal luggage, but parcels of dutiable goods are included in the statistics.

COUNTRIES TO WHICH IMPORTS AND EXPORTS ARE CREDITED.

Imports are classified as received from the countries of origin.

Exports are credited to countries of final destination.

METHOD OF ASCERTAINING QUANTITIES AND VALUES OF IMPORTS AND EXPORTS.

The statements of quantities and values are based on the declaration of importers and exporters and subsequently checked by the Customs. Where goods are entered by weight the quantities shown as imported (except in cases where duty is charged on the gross weight) and exported represent the net weight exclusive of packages, sacks, casks, etc., in which they may be contained.

The value of imports are exclusive of the amount of duty, and are “c.i.f.”; the values of exports are “f.o.b.” values, inclusive of export duty.

Imports by parcel post are not classified according to their nature but are separately recorded, and are entered according to value.

IMPORTS AND EXPORTS—continued.

CONCESSIONS AND LICENCES.			General Information regarding the Industry and the Possibilities of Development.
Concessions, Cutting Licences, etc.	Number.	Area covered.	
Timber	... No concessions granted, only few licences to fell trees.	—	The timber industry, a very small one, is chiefly carried on by the native sawyers and canoe makers who work in unreserved forests over which the Government have no control. From the reserved forests, most of which at present are rather inaccessible, no large supplies of timber were obtained.
Rubber	... —	60 acres of hevea being worked by Prison Department.	Native sawyers continue to work in unreserved forests to produce boards and small scantlings. In the reserved forests, 105 licences were issued to fell trees for local use. The departmental outturn of sawn lumber amounted to 91,258 superficial feet.
Gum copal	... No concessions granted and only few licences to tap trees.	10 square miles	Tapping took place in 1934. The export of gum copal in 1935 amounted to 51 tons.
Clearance licences for prospecting for minerals and mining in forest reserves.	5	—

Catch of Fish.			Number of Boats and Persons engaged in Fishing.	General Information regarding the Industry and the Possibilities of its Development.
Kind of Fish.	Quantity.	Landed Value.	Number of boats engaged in fishing.	
Angel ...	Not ascertainable.	1 <i>d.</i> to 3 <i>d.</i> each	Not ascertainable.	<p>Fish abounds in the river Rokelle: but the catches are irregular owing to the fact that only surf boats with drag nets are used in connection with the industry. In various parts around Freetown, where there are tidal rivers, a fair quantity of fish is caught by setting traps with galvanized wire netting. Trammel nets have also been tried but unsuccessfully, although a kind of net made locally is used in some portions of the Southern Province in the same way as trammel nets.</p> <p>In 1928 an investigation was made into the fishery resources of Sierra Leone by Mr. J. Hornell, late Director of Fisheries to the Government of Madras. The result of the investigation is embodied in a report which is obtainable from the Government Printer, Sierra Leone. Mr. Hornell recommended that the quantity and quality of the fish abounding in the sea coast of the Colony are worthy of commercial enterprise.</p>

State Area which has been Geologically surveyed. Note any important Mineral Deposits known to exist, but not at present worked.

The potential water power resources of Sierra Leone are very great. The average rainfall over the whole of Sierra Leone is more than 100 inches per annum, and nearly all of the big rivers and many of the smaller streams descend from the high plateaux in the northern and eastern portions of the Protectorate by a series of falls and rapids. Important falls and rapids occur in the same streams in their courses across the coastal plain.

Near Pundaru, the Sewa River falls 300 feet, including a vertical fall 105 feet high, in about 1½ miles. The ordinary minimum run off at this point is roughly 1,000 cusecs.

Near Bambuna, the Rokell (Seli) River falls about 200 feet in 2 miles, and near Marampa there are falls and rapids, aggregating 50 feet in height, on the same river. The run off at the latter place is very large.

At Bitiri (Bitmai) near Mamaya the Pampana River falls about 120 feet in 0.15 mile.

Important falls also occur in the Taia River near Mougeri, and in the Moa River near Daru.

Chromite, Ilmenite, Corundum, Molybdenite, Rutile and Lignite.

INDUSTRIAL ESTABLISHMENT MANUFACTORIES.

Industry.	Number of Establishment or Manufactories.	Number of Persons employed.	Cost of Raw Materials used.	Output during the Year.	
				Quantity.	Net Selling Value at Factory or Works.

There are no manufactures in the Colony or Protectorate. Simple articles for local use are made, the more important being baskets, boats and canoes, boots, shoes, sandals, coco-nut oil, cotton cloths, coarse dyestuffs (principally indigo), fishing-nets, seines, furniture, ground-nut oil, hammocks (cloth and grass), leather, building lime made from oyster shells, mats, palm oil, pottery, ropes and fishing lines, soap. Two companies (Freetown Cold Storage Company and the Crown Bottling Company) manufacture ice and mineral waters.

SUMMARY OF INDUSTRIAL DEVELOPMENT.

An Agricultural Station for the introduction and breeding of rice was opened in the Scarcies Area in 1924 with a view to developing an export industry in this product.

Interesting results were obtained from this Station in 1935. Buildings to house a Government Rice Mill at Cline Town are in process of erection.

The Taungya system of improving the natural forests is being continued in four forest reserves. An enumeration survey is in progress and exploitation has been successfully begun departmentally.

Continued progress was made in the mining industry during the year, and record productions were obtained in each of the minerals mined.

Messrs. Maroc, Limited was again the largest gold producer, but many small interests were attracted to alluvial gold mining during the year and contributed towards the record production.

The Sierra Leone Development Company, Limited mined the Marampa hematite iron ore deposit throughout the year and is rapidly establishing a market for Sierra Leone ore.

The Sierra Leone Selection Trust, Limited, who hold the sole right in the exploration and exploitation of diamond in Sierra Leone, made marked progress during the year, and Sierra Leone is now definitely established as one of the important diamond fields of the world.
